KNOWLEDGE SOLUTIONS

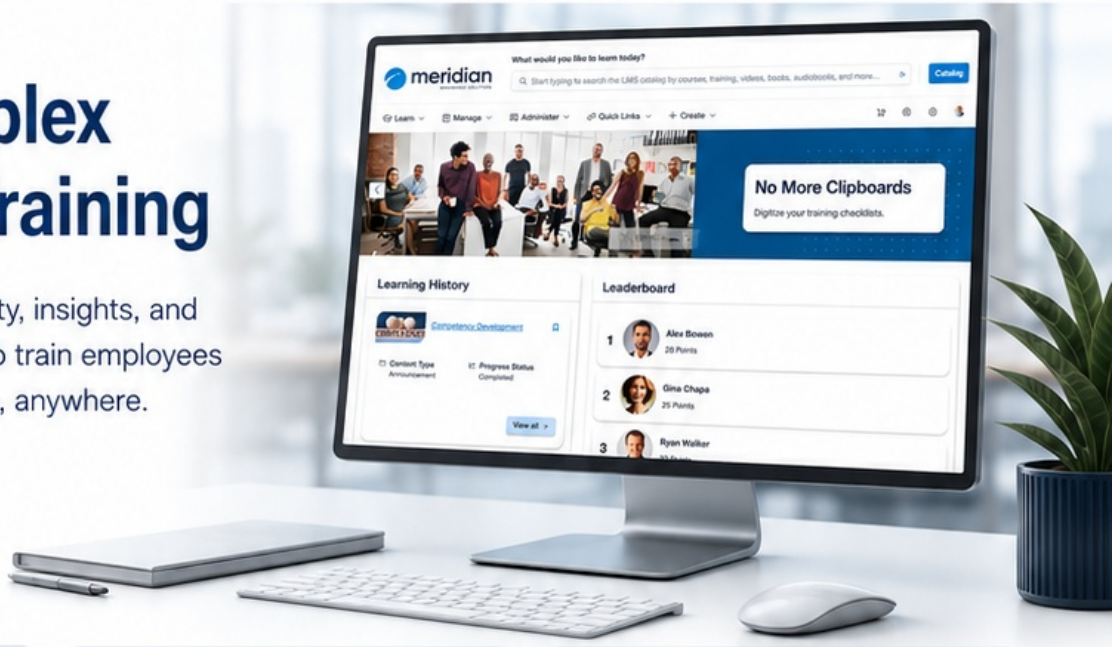
Built for Complex Commercial Training

Meridian LMS delivers the flexibility, insights, and integrations organizations need to train employees and external audiences—anytime, anywhere.



1. Configurable Platform

Adapt branding, roles, workflows, and learner experiences to fit your business.

2. Reporting & Analytics

Track assignments, completions, due dates, certifications, and program performance with clear dashboards.

3. Compliance & Certifications

Support required training, policy acknowledgments, and recurring certification management.

4. Extended Enterprise Training

Train customers, dealers, distributors, and partners in one branded platform.

5. Integrations

Connect with HR, business, content, and virtual learning tools.

6. Blended, Mobile & eCommerce

Deliver online and instructor-led training, support mobile access, and monetize learning when needed.

Why Meridian

- 28 years of LMS experience
- 100% U.S.-based company, development, and support
- Built for complex training programs across employees and external audiences
- Dedicated implementation and ongoing customer support

Johnson Controls

Johnson Controls used Meridian to support U.S. and Canadian partner training with scheduling, eCommerce, and multilingual capabilities.

Built for These Use Cases

- Employee onboarding
- Compliance & safety training
- Partner / dealer education
- Customer training
