

The Meridian LMS for Associations

The Meridian Learning Management System is ideal for member organizations that want to grow the revenue generated from their educational offerings.

The Meridian LMS for Associations

Today's trade and professional associations are challenged to look beyond member dues for additional streams of revenue. Savvy organizations are strengthening their continuing education programs to generate growth. The Meridian LMS allows you to easily scale and manage your training initiatives with your partners, resellers, customers, and members.

Simplify Management

Easily track and manage your complex accreditation requirements.

Customization

A personalized interface is included to match your association's branding.

Training

Help members close gaps between formal education and workforce readiness.

Integration

The Meridian LMS easily integrates into your key technologies such as your AMS and other critical enterprise applications

Course Catalog

Meridian delivers a consumer-grade course catalog that allows your members to quickly locate the courses needed for their professional development.

Certification

Notify members of due dates to maintain certifications, licenses, and accreditations.

Compliance

Support members worldwide with full-page translations and GDPR compliance.

Gamification

Use gamification, badging, and surveys to spark member engagement.

eCommerce

eCommerce functionality offers secure and flexible payment options, discounts, and bulk training purchases.
