

Meridian LMS for State & Local Government

Designed to meet the most stringent government security demands and accessibility requirements.

Quick Info Sheet for State & Local Government

Meridian's Learning Management System (LMS) is the top training solution for state and local government organizations facing complex learning challenges. Meridian's product roadmap is 100% learning-focused, offering the public sector a scalable LMS with robust features. We power progress by providing compliance training, branded and blended learning environments.

Superior Training to Better Serve Your Citizens

Enhance security and accessibility compliance

to meet the most stringent government requirements, including 508 accessibility and security demands.

Ensure continuity of essential services

with on-premise, private cloud, and public cloud environment delivery options, ensuring continuity of essential services even during times of crisis.

Improve tracking and reporting

with Meridian's xAPI capabilities. Track learning regardless of the mode of delivery, leading to better learning insights, outcomes, mission readiness, and overall performance.

Improve workforce readiness

with the Meridian LMS, state and local agencies can ensure that their workforce is equipped with the skills and knowledge necessary to perform their duties effectively.

Streamline employee onboarding

by delivering compliance training and other critical courses online, the Meridian LMS can help state and local agencies reduce the time and resources required for employee onboarding.

Expand training opportunities

beyond employees to partner organizations and contractors, leading to a more skilled and knowledgeable workforce.
