KNOWLEDGE SOLUTIONS

Built for Federal Learning Complexity

Meridian LMS helps federal organizations simplify training management, strengthen compliance, and build a more capable workforce.

Security & Compliance

FedRAMP-ready learning delivery with strong controls, audit support, and certification tracking.

Accessibility

Support inclusive learning experiences with Section 508 and WCAG-aligned design.

Flexible Deployment

Choose FedRAMP SaaS, private cloud, or on-premises based on mission and security needs.

Reporting & Automation

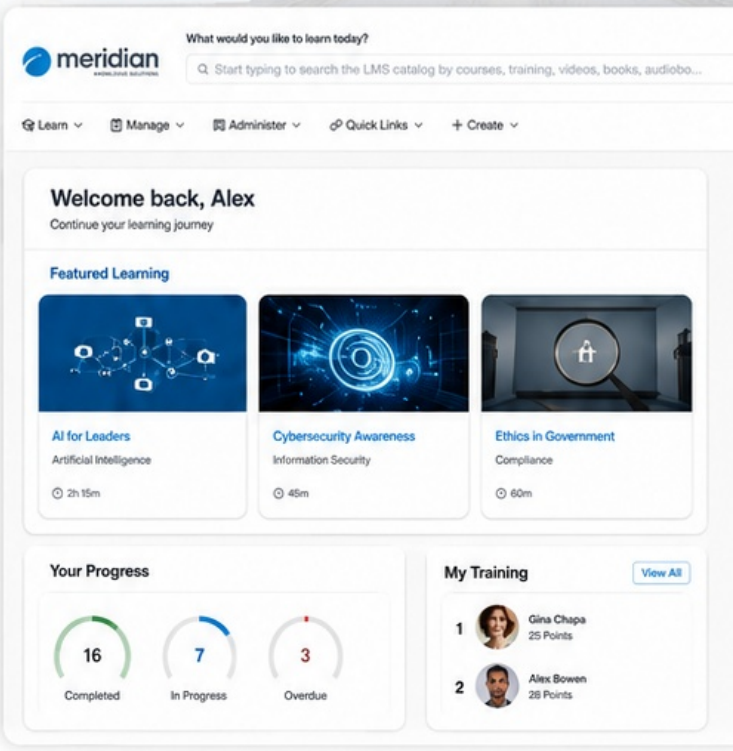

Track assignments, completions, due dates, and training status with dashboards and automated reminders.

Extended Enterprise Training

Train employees, contractors, partners, and other external audiences in one platform.

Configuration & Integrations

Adapt workflows, roles, and data connections to fit your environment and existing systems.

Why Meridian

- 28 years of LMS experience
- 100% U.S.-based company, development, and support
- Trusted across Federal Civilian, DoD, Intelligence, and System Integrator organizations
- Dedicated implementation and ongoing customer support

Powering Training Across Federal Missions

Onboarding

Accelerate new hire productivity with structured learning paths.

Annual compliance

Meet recurring training requirements and policy acknowledgments with ease.

Certification management

Track certifications, renewals, and expirations in one place.

Contractor / partner training

Extend consistent training to external partners securely.
